EAST CONSULTING PRO TIP

Complete the Business Setup Checklist in order before you seek funding. Banks and investors verify these foundational elements before they commit to your business.

02 NEXT STEPS

- 1 Work the checklist in order.** Each step builds on the one before it — your EIN, address and phone number should match everywhere.
- 2 Keep business and personal finances separate.** Run all business income and expenses through your business bank account.
- 3 Set up your bookkeeping.** Choose an accounting system (QuickBooks, Wave, or similar) and record every transaction from day one.
- 4 Build your professional presence.** Keep your business name, address, and phone number consistent on your website, Google Business Profile, and directories.
- 5 Get a funding strategy.** Once your foundation is in place, book a free consultation and we'll map your path to capital.
